

## **Extra TSE**

Claiming 100 miles at TSE rate account on (date and time) called on duty to work a make-up or extra TSE (Job #). Extra TSE's are not allowed on the Houston Hub. Per IGN agreement memorandum May 9, 1995, Section 1 Page 4, TSE's will be bulletined with regular set start time (now state your facts for example).

1. Regular (job #) starts at (time) and had # of hours left to works.
2. Was called for (Job #) and this TSE is not even a regular TSE assignment.

The most important thing we can do is follow up on this. Sure they will deny this claim but turn it into your local chairman. We need to process these claims to put a stop to this.

Note:

**Remember the burden of proof falls on YOU the Claimant.**

**The claim is only as good as the evidence provided and the timeliness in which it is filed.**
